**SWINETECH® CHOSEN FOR STATEWIDE SBDC AWARD**

***SwineTech®, Cedar Rapids, chosen for October Small Business of the Month Award***

AMES, Iowa – America's SBDC Iowa (SBDC) is pleased to announce that SwineTech® of Cedar Rapids, is the winner of the SBDC's statewide Business of the Month Award for October.

SwineTech® opened for business in 2014 to offer a solution to pig farmers in order to reduce the number of piglet crushing incidents that occur in their operations. SwineTech® offers a revolutionary product that takes inspiration from the field of chiropractic combined with AI in order to humanely get the sow to stand in the case of an accidental piglet crushing. In the future, SwineTech® is looking to use their knowledge and metrics gathered from the sow in order to predict life events such as illness or time of birthing.

Through the assistance of the SBDC, SwineTech® has been able to secure angel and venture capital funding and develop a solid business plan. SwineTech® has won several business plan competitions and various other awards from MIT, American Farm Bureau, and the Investors Hall of Fame. Co-founders Matthew Rooda and Abraham Espinoza have also been recognized by Forbes as part of the 30 under 30 most promising companies in manufacturing and industry.

SwineTech® has quickly become one of the most respected names in the ag-tech industry and continue to pave the way in changing the way farmers raise their swine.
