Presented By:

Encryption:

- (Apple) FileVault
- (Windows) BitLocker

Cloud Storage Solutions:

- Google Cloud Store
- Amazon S3
- DigitalOcean Spaces

File Storage:

- Google Drive
- Microsoft OneDrive
- Dropbox

In today's day and age, having a backup of your businesses critical files is extremely important. In the event that something happens to your computers or your business, if you have a backup of your devices you can rest assured that you can continue business as usual no matter what challenges you may face. We highly recommend a secondary storage solution where you keep an exact copy of everything you need to run your business in the event of an emergency.

File backup:

- Google Drive
- SpiderOak One
- Microsoft OneDrive/SharePoint
- Rsync/rclone (Advanced, storage must be provided)

Password Management:

- Lastpass
- 1Password
- Dashlane
- Keeper

Business Wide communication:

- Slack
- Skype
- Encrypted email solutions like Gmail or Microsoft Office
- Zoom

Virtual Private Network (VPN):

- ExpressVPN
- Private Internet Access
- CyberGhost VPN
- Surfshark
